FieraMilano Rho Fairgrounds

June 09-12, 2026

International biennial exhibition of wood
and furniture industry technology

Assago, November 27, 2025

XYLEXPO AND INTERZUM FORUM ITALY: THE “JUNE OF FURNITURE”

The community of the wood and furniture industry is preparing for an intensive June. The new dates of **Xylexpo**, the biennial international technology exhibition to be held next June 9-12, 2026, have created the best conditions for strategic synergy with **interzum forum Italy**, planned few days before – June 4-5 – at the Bergamo fairgrounds. Close dates, exhibition centers just a few dozens of kilometers apart, similar categories: these are the trumps played by both events to win the challenge of an industry looking for recipes to revive the exhibition movement, combining advanced technologies, materials, ideas, projects, tools, trends and design.

Over the next few months, the two events will offer a range of **joint events** to promote an alliance that will allow visitors and exhibitors to experience the evolution of the entire value chain: technical, design and business developments concentrated in few days, from materials to products, from technology to services, without forgetting the big topics of sustainability, digital transformation and “Innovation 5.0”.

*“This partnership represents the new direction taken by Xylexpo”, said **Dario Corbetta**, exhibition director. “The collaboration with the semifinished materials industry, the concurrency with **Plast** – the exhibition for the industry of plastics and rubber – and the debut of the expo & conference **Composites Future**, dedicated to technology and materials for the composites business, are strong evidence of our determination to provide visitors and exhibitors with a comprehensive exhibition, built on solid foundations to generate new value”.*
