**FieraMilano Rho Fairgrounds**

**June 09-12, 2026**

International biennial exhibition of wood  
and furniture industry technology

Assago, February 9, 2026

## **BIESSE AMONG THE BIG PLAYERS AT XYLEXPO/COMPOSITES FUTURE 2026**

**Biesse**, a brand that needs no introduction, have also confirmed they will exhibit at Xylexpo/Composites Future 2026, adding their name to the long list of companies that had already registered, such as **Felder** or **SCM**.

*"The participation of big groups reaffirms Xylexpo's role in a context like the Italian market, one of the top destinations for woodworking and furniture technologies", commented **Dario Corbetta**, exhibition director. "Such important registrations clearly add value to the decision by many small and medium businesses to attend Xylexpo, with plenty of registrations pouring in during these weeks from Italy and all over the world".*

For the first time, the international biennial exhibition of technology for the wood and furniture industries – held concurrently with **Plast**, the exhibition of machinery and equipment for the plastic and rubber industry, from June 9 to 12, 2026 – will also involve the world of **composite materials**, a domain where woodworking machinery have been at home for some time now.

*"The decision, shared with Plast, to create **Composites Future** has made our event even more attractive, not only involving the top brands of this specific industry, but also promoting the companies and groups that are closer to our industry and have centered their strategy around a **multimaterial approach**", Corbetta added.*
