Xylexpo | 2026

29TH INTERNATIONAL BIENNIAL EXHIBITION
OF WOOD AND FURNITURE INDUSTRY TECHNOLOGY

An increasingly "multimaterial" world...

... where new markets demand new technological solutions for operations that are more and more open to different knowledge and methods. This is the starting point for the new **Xylexpo** concept that, from the next edition, will host "**Composites Future**", an exhibition dedicated to composites and innovative materials, organized in collaboration with **Plast** and **Assocompositi**.

DECIDE NOW TO EXHIBIT AT XYLEXPO 2026!

You will benefit from a **10 percent** reduction on your exhibition area.

If you register now, together we can choose the **location** for your booth, and you can **increase your visibility** among the companies that Xylexpo will promote in its information and communication campaign.

You will be an outstanding figure in a new big event

dedicated to technologies and materials for wood and furniture, constructions, plastics and rubber, nautical, aerospace, automotive, transportation and many more manufacturing industries.

Xylexpo is waiting for you!

The next edition of the International biennial exhibition of wood and furniture industry technology will take place from **9 to 12 June 2026**, as dates had to be shifted due to the allocation of the FieraMilano-Rho premises to the 25th Winter Olympics of Milano-Cortina.
Since 1968, this event – promoted by **Acimall**, the association of Italian manufacturers of woodworking machinery and tools – has always been included in the agenda of all industry operators, as it offers a **complete overview** of the woodworking business, illustrating the evolution towards **multimaterial**.
Xylexpo is a showcase that illustrates the excellence of "made in Italy", while being open to solutions, technologies, tools and equipment from **international exhibitors** who know that, in Milan, they can find valuable opportunities for new contacts and business with the **Italian market**, one of the most important (apparent consumption:
953 million euro in 2024) and advanced on a global scale, combined with strong projection on the European markets.

Xylexpo digital

Again this year, Xylexpo will have a strong digital dimension: **meetings**, **presentations**, **roundtable discussions**, **interviews**, "**tech tours**" and **seminars** will take place in the fairgrounds and will be broadcast also on the Xylexpo Digital platform.

The contents will therefore be accessible also to those who cannot visit the exhibition, so that they can participate In the "**new Xylexpo**".

Xylexpo “on stage”

Several initiatives, including:

- la prestigious collaboration with Holzbau Forum:
- the first edition of “**Forum Legno Edilizia Xylexpo 2026**”;
- the presentation of the first “**Manuale della essiccazione**” (Drying Handbook), edited by Conlegno and Unifi-University of Florence;
- events/roundtable discussions about **tools**, **surface finishing and much more**, in collaboration with Catas, Unifi and leading industry organizations.

The **MaTec** stage will offer several opportunities for knowledge sharing and in-depth analysis organized by **Plast**, as well as interesting events within “**Composites Future**”, to talk about processing technology, sustainability, new construction materials and opportunities in aerospace, shipbuilding and automotive.

A highly innovative concept!

A “digital vocation” and a rich calendar of side events will attract in Milan a **large audience of operators** looking for technologies, ideas and end-to-end solutions.

Joint promotion

Since May 2024, we have been working together with our partners involved in **MaTec-Next materials and technologies** to make Xylexpo 2026 a milestone in the evolution of exhibitions. This broad and extensive action has been driven by the three exhibitions on a national, European and global scale, with the valuable support of **ICE Agenzia**.
