CEPRA - Centro promozionale Acimall
Centro direzionale Milanofiori
1a Strada - Palazzo F3 - I-20090 Assago (Milano)
www.xylexpo.com - info@xylexpo.com

designed to (description of functionality)

- For CNC joinery machines and portal processing machines
- For circular drilling, cutting, formatting, grooving and rebating
- Suitable for machining soft- and hardwood, laminated beams, cross-laminated timber panels CLT
- Extreme machining depths

This solution offers the following innovative features:

- Very long cutting lengths for max. machining depths
- Lightweight construction for minimum weight for usage in many wood processing machines
- Economic: Equipped with standard knives (fast revision + replacement)
- Sustainable: Center knife for drill on a replaceable end drill part
- Handling: no more turning + handling of huge and heavy beams due to the machining length: 410 mm machining depth without turning the beams

The award has been created to recognize innovative solutions presented at Xylexpo, therefore the jury will only consider solutions / activities launched after January 1st, 2020.

The applicant takes full responsibility for the statements contained herein and accepts that, in case of discrepancies and/or non-compliance, the nomination may be canceled and/or the prize withdrawn (if already assigned).

Put an X on the correct option:

Is this solution a "global preview"? YES NO

If NO, is it a new solution for the Italian market? YES NO

If NO, where was it presented for the first time?

In which year? Is it currently in production? YES NO
